ACTIVITIES

Intertraffic - we welcome you to visit us! April 2008 at Amsterdam RAI Convention Centre.

COMPANY NEWS

Inaugurated New Training Facilities

In order to provide our esteemed clients and end users of Telegra's equipment and integrated traffic management systems with ever better service, Telegra has inaugurated a new training area equipped with most modern audiovisual facilities.

Located on the top floor of new 4000 m2 building it features modern classroom/conference facility, showroom featuring a permanent comprehensive demonstration installation of Telegra's products and systems plus a large 150 m2 multipurpose area for organization of special events.

We look forward to being able to share these new facilities with trainees coming to learn more how to better utilize and maintain systems delivered by Telegra or simply enjoy system demonstration in more pleasant surroundings.

We look forward to see you soon at our new training - demonstration facility.

Completed Certification - Success in Austria

Meeting standards and compliance with industry requirements provide you important benefit of being able to implement Telegra's solutions and products in your system environment and be certain of its smooth integration and seamless interoperability with other already existing parts or future additions to your systems.

Therefore it is our pleasure to advise that Telegra completed all testing and other procedures and will be from now onward able to provide our clients with by ASFInAG fully certified roadside controllers (Streckenstationen) and communications concentrators (KRI - Kommunikationsrechner Inselbus) which

completely meet TLSoVerIP and other ASFInAG criteria. With previously received type acceptance and pictogram approvals for Variable Message Signs Telegra has become a single company being able to provide with such a range of products of its own design and production.

Your preferred ATMS supplier Awarded for Excellence - Telegra recognized as the most successful middle size company in Zagreb region

Efforts by Telegra to provide you with benefit packed products and solutions has been recognized by Zagreb Chamber of Economy, regional organization of the Croatian Chamber of Economy, which declared Telegra d.o.o. as the region's most successful middle sized company for year 2006 and awarded it with Golden Kuna award and plaque.

This decision was on its ceremonial conference, traditional December meeting of the businessmen from Zagreb, city and Zagreb region, held on 18th of December 2007. Awards were given for the achieved business results in the past year and for

the demonstrated financial results and excellence in technological achievements and innovation, all key features for a success and further development on the world markets as clearly pointed out by the president of Zagreb Economics Chamber Dr. Zlatan Fröhlich.

ACTIVITIES

Exhibitions

Time really flies fast - two years have passed and new Intertraffic in Amsterdam is just around the corner

For the first time listed as Telegra we welcome you to visit us between the 1st and the 4th of April 2008 at booth 01.316, Hall 1, at Amsterdam RAI Convention Centre.

At this most important and largest show for transportation infrastructure, traffic management and safety it will be our pleasure to introduce you to benefits of exploiting fruits of our expertise, knowledge of true in-

tegration of advanced traffic management systems and offer of uncompromised support - all in line with our new slogan - Smart Traffic Management.

Just 20 days after exhibiting at Intertraffic Amsterdam our Exhibition Tour 2008 continues in Beijing at Intertraffic China 2007. We are also pleased to invite you to Intertraffic China 2008, the second edition of Intertraffic China that will take place from 24 to 26 April 2008 in the Beijing Exhibition Centre. You can find us at stand 2116.

We look forward to see you all there!
